

- L. Stop-work order. The Fire Official may request that the Building Inspector issue a stop-work order upon any permit issued subject to the inspection and approval authority of this chapter, where the Fire Official finds that any of the conditions for issuance have not been maintained or where there has been any false statement or misrepresentation of any material fact made in the application or plans upon which the issuance was based.

**§ 133-4. Outdoor burning restricted.**

- A. Rubbish burning. There shall be no open-air burning of any combustible waste material except as allowed by permit issued by the Fire Official and subject to the following regulations:
- (1) Wind velocity cannot exceed nine miles per hour.
  - (2) Contents of the pile can only include leaves, brush and other garden refuse. Burning of building materials is prohibited.
  - (3) The size of the pile shall not exceed four feet in width or three feet in height.
  - (4) Open burning shall be constantly supervised by a competent person, at least 16 years old, until the fire is extinguished.
  - (5) The pile to be burned shall be a minimum of 50 feet from buildings and 25 feet from any public roadways, highways or other thoroughfare.
  - (6) If smoke travels in such a manner to obscure any public roadway, highway or other public thoroughfare, the fire shall be extinguished.
  - (7) Open-air burning shall only be permitted from 7:00 a.m. to 1/2 hour after sunset.
  - (8) Burning shall be permitted from April 1 to June 15 and October 1 to November 15.
  - (9) Flammable or combustible liquids shall not be used to ignite or accelerate the fire at any point.
- B. Recreational burning. A recreational fire is defined as a fire to be used for cooking or warmth similar to a campfire. The fire shall be three feet or less in diameter and no more than three feet tall. Recreational burning does not include fires in grills, fireplaces or similar fire enclosure devices. **[Amended 8-3-1999 by Ord. No. 99-1571]**
- (1) Size, location and general requirements.
    - (a) Fires shall be less than or equal to three feet in diameter and less than or equal to three feet in height.
    - (b) The fire area shall be protected by a fire ring or in some other similar fashion acceptable to the Fire Official.
    - (c) Fires shall contain wood only. Other building materials are prohibited.

- (d) Fires shall not be started or accelerated using flammable liquids, such as gasoline.
- (e) Fires shall be attended at all times by a competent person, at least 16 years old, who has obtained the permission of the property owner.
- (f) The fire shall be a minimum of 25 feet from all structures, roadways and lot lines.
- (g) If smoke travels in such a manner that it obscures roadways, the Fire Official reserves the right to require that the fire be extinguished.
- (h) Recreational fires are prohibited on construction sites.
